New Luxury Lodge, In Heart of Mozambique's History and Culture, Set to Open November 1st

Denver, CO (September 2, 2009) – Today, Coral Lodge 15.41, a unique luxury lodge at a prime beach location near the UNESCO World Heritage site, Ilha de Mozambique, announces their launch into the North American Market. This new property, ideal for a post-safari beach getaway, is modern with a distinctly African flavor, and offers guests the latest in luxury and comfort while maintaining an authentic feel of Mozambican pureness.

“After a lot of hard work we are excited to open our doors on November first of 2009,” explains Alexandra Otto-van der Ende, owner of Coral Lodge 15.41. “The resort’s design, by Dutch designer Edward van Vliet, incorporates the colors of its environment using wood and brightly-colored textures. These natural materials make the resort blend in perfectly with the surroundings. We have made further use of the area’s natural setting by building Coral Lodge 15.41’s villas on top of the dunes. This allows our guests to get the full benefit of the incredible views and the constant breeze from the Indian Ocean.”

Coral Lodge 15.41 comprises 10 expansive villas each designed for optimal privacy and relaxation. The living space includes informal sitting areas, a bedroom, a bathroom and a big terrace. All villas offer stunning views over the Indian Ocean and Ilha de Moçambique.

Coral Lodge 15.41 is built on a privately- owned reserve called Varanda, a peninsula jutting into the ocean on one side and a large lagoon on the other. Through the lagoon the tides offer life to the mangrove forest behind massive sand dunes. The area is visited by east African birds and is habited by bush babies (small nocturnal primates), monkeys, snakes, mongoose and other small mamals. Guests can explore Varanda by canoe or on foot.

##PAGE TWO##

While visiting Coral Lodge 15.41 it is imperative that guests also visit UNESCO World Heritage site Ilha de Mozambique. This former Portuguese trading-post on the route to India is remarkable in its architectural unity, due to the consistent use, since the 16th century, of the same building techniques, building materials (stone or *macuti*) and decorative principles. From Coral Lodge 15.41 guests look out on the San Sebastião Fort (1558 AD) at the north point of the island.
