Mozambique Voyages Now Provides Travelers Exclusive Access to Africa's Hottest Destination

New Tour Operator Specializing in Mozambique Launches into North America

DENVER, CO (January 29, 2010) – As the travel industry recovers from what some consider to be the most challenging year ever in 2009, now more than ever travel professionals are realizing the importance of destination specializing and creating value for travelers through providing the most accurate and up-to-date information and access to destinations around the globe. Today, new tour operator Mozambique Voyages launches to provide travelers an unprecedented level of access and specialization for travel to Mozambique.

“Mozambique is perhaps the most exciting destination on the African continent at the moment,” explains Martijn Mellaart, owner of Mozambique Voyages. “While we’ve always had spectacular Indian Ocean beaches on offer, in the last few years we’ve seen many new, small, eco-friendly and intriguing properties open along the coast catering to an upscale, international market. We also have new safari destinations across the country, and are increasingly able to offer a complete Africa safari experience for travelers. My team spends a significant amount of time each year personally visiting all the properties in the country and seeing first hand the destinations Mozambique Voyages is selling. No other company can offer this level of first hand knowledge when it comes to Mozambique.”

Mozambique Voyages is a new division of Uitkyk Holidays, a safari company specializing in the whole of Southern Africa. Having been in operation for twelve years, Uitkyk was increasingly specializing in providing full ground handling services specifically for Mozambique as a destination, and as a result of the volume of business in Mozambique was able to offer the best rates and most up to date product knowledge in this destination. The decision to create Mozambique Voyages as a separate company was an obvious move for 2010. Uitkyk Holidays will still continue to market, sell and package itineraries and tours in Southern Africa countries including South Africa, Namibia and Botswana.

Mozambique has been called “the last undiscovered pearl of the Indian Ocean”. Offering a diverse variety of experiences for travelers to discover from the delights of abundant coral reefs to experiencing the majestic Whale Sharks to the country’s growing National Parks with abundant wildlife and of course the idyllic tropical islands, Mozambique is truly Africa’s next big destination. For more information on Mozambique or to learn more about working with Mozambique Voyages, please visit <http://www.mozambiquevoyages.com> (web site under construction, set to launch end of February 2010.)
